Forecast For The United Kingdom
Issued by Met Office Exeter
at 1500 on Monday 10 May 2021

UK Outlook for Tuesday 25 May 2021 to Tuesday 8 Jun 2021:
Confidence remains low for this period, although typical spring weather patterns are most probable, with a mixture of sunny spells and showers for most parts of the UK, especially at first. Overall, the driest and most settled conditions are most probable in the south, with the north generally more unsettled as longer spells of rain and strong winds arrive from the Atlantic at times. Temperatures likely to be around average.
